

## HELPING TO MAKE THE SOUTHERN VIRGINIA AREA HEALTHIER

At Memorial Hospital of Martinsville and Henry County, our goal is to deliver the best healthcare available in the greater Southern Virginia area as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your continued support and encouragement, we continue our passionate pursuit of excellence.

Delivering quality healthcare close to home is the single most important contribution we make. But there are many other ways we make a positive impact on the communities we serve. Here are a few of the other ways we are making a difference.

### More than \$2.2 million in capital improvements

In the past year, we have added Digital Mammography and Breast MRI services in order to provide the women in our community with the highest level of care. We have also added lithotripsy services.

In fact, we invested more than \$2.2 million in our facilities last year which, in addition to the above, included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

### Contributing to our local tax base

Last year, Memorial Hospital paid more than \$1.9 million in taxes that have helped to support our city, county and state. This included sales taxes as well as property taxes. These dollars help to support local schools, development of roads, recruit-

ment of business and industry, and other needed services.

### Helping those in need

Memorial Hospital provided over \$149.1 million in uncompensated care last year, which included the amounts not covered by government-sponsored programs such as Medicare and Medicaid. This amount includes more than \$18 million for charity care and bad debts, incurred as we cared for many people who are without sufficient resources.

### Adding to the medical staff

During the past year, Memorial Hospital has added six new physicians to our highly respected medical staff, including specialists in cardiology, oncology, pulmonology, nephrology, pediatrics and emergency medicine.

### One of our community's major employers

With an annual payroll of more than \$42.5 million and 840 employees, Memorial Hospital is one of the largest employers in the region.

We thank you for choosing Memorial Hospital for your healthcare needs. With your support, together we can make an even greater hospital and a healthier community.
